Silver	1C102

#### Technical Information

##### Corrosion resistance

Meets the requirements of BS EN 1670:2007 Grade 5 (480 hours)

##### Material Specification

Backplate: High quality Aluminium for all finishes

Coatings: White, Black and Silver

#### Maintenance

For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

#### Packaging

##### Handles

Individually bagged.  
15 plates in an outer box.

All dimensions are in mm and are nominal.  
Fab&Fix reserves the right to change specification without notice.  
It is the responsibility of the door manufacturer to ensure that the finished product meets any required safety and performance specification.
