For additional part numbers please contact our sales office.

Technical Information	
<b>Corrosion resistance</b>	Meets the requirements of BS EN 1670 Grade 4 (240 hours)
<b>Material Specification</b>	
Numeral:	High quality Zinc casting
Coatings:	White and Black powder painted coated. Polished Gold, Chrome and Satin Chrome Plate electroplated
Screws:	Includes 2 X M3.5 x 25mm colour coordinated countersunk flat head screw

Maintenance
For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

Packaging
<b>Numerals</b> Individually bagged with screws. 10 numerals in an inner box. 100 numerals in an outer box.

2 x Screws Provided  
Per Numeral

All dimensions are in mm and are nominal.  
ERA reserves the right to change specification without notice. It is the responsibility of the door manufacturer to ensure that the finished product meets any required safety and performance specification.
