

Smart Universal Door Handle.
Live Smarter.

ERA
PROTECT

ERA

Securing Britain's homes for generations.

ERA has been at the heart of the British lock making for over 185 years. That knowledge, experience and expertise in securing homes across Britain, drives us to produce products that not only secure your home but benefit your lifestyle. The ERA Protect Smart Universal Door Handle combines smart technology with the best in home security, offering you a new way to access your home without needing a key.

Remote opening from anywhere, with the WiFi connection hub

'lift to lock' action

Battery powered, with low battery warnings and notifications. Plus, 9V battery back up for emergencies

Smart Universal Door Handle

- Universal door handle to replace an existing door handle or to fit onto a new door
- 3 smart methods of entry
- Lifting the handle will lock and secure the door with a thumbturn to exit
- For use on doors fitted with a 'lift to lock' multi-point door lock
- Compatibility checker will let you know in minutes if the handle is right for your door
- Simple DIY installation with handy videos and guides to help with every step
- Voice prompts for set up, operation and low battery notifications*
- Suitable for use on left or right handed doors in PVCu, composite, aluminium and timber

* Can be disabled if required

Built-in security protection

Our smart technology, data storage and security have been independently tested, so you can make an informed decision about security of your home. With our GDPR and PSTI compliant platform, app and handle; users have full permission to control, monitor access and track activity.

Keyless access for your home

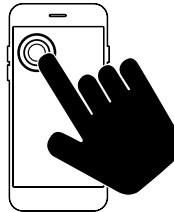

The ERA Protect Smart Universal Door Handle offers you three smart ways to enter your property at the door. Or using the WiFi hub, you can remotely connect to unlock your door from anywhere, anytime. Offering you choice and convenience twinned with the highest security protection.

Fingerprint

Instant access without keys

Offering a convenient way to unlock your door. Store up to 50 fingerprints securely, each named within the ERA Smart Home App. More than enough space for all the family to add several prints each!

Smart Home App

Single touch unlock

One touch unlock via the app, or remotely via the connection hub. Send digital e-keys to trusted friends and family, grant access times for visitors and of course revoke as require.

Encrypted Key Card

Simply tap for access

Tap on the handle for immediate access. Notifications and activity logs alert the main user when cards have been used, so you have the added reassurance that family members have arrived home.

Your home, your choice

Choose from matte black, polished chrome or satin chrome to complement your property exterior. A simple, stylish thumbturn allows easy exit from inside and a lift of the lever secures your property effortlessly.

Black

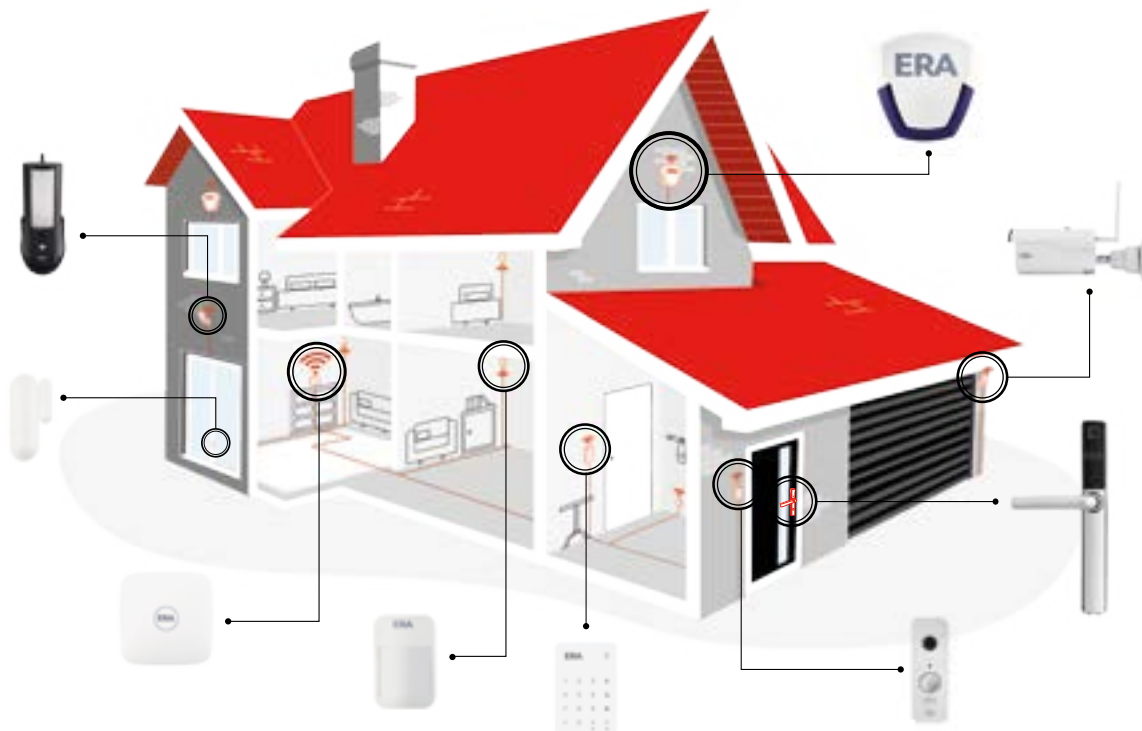

Polished Chrome

Satin Chrome

Get more from your ERA Protect Door Handle

For an allround approach to home security and monitoring, the EP1 door handle can work alongside ERA's wider smart home products. Why not add a smart alarm, window/door sensors, cameras, doorbell and sirens, at any time, building your smart home security as you go.
